## Going-to-the-Sun Road – August 6 - 12, 2006

Throughout the summer (mid-June to mid-September) 'shared use' of the road is maintained to allow visitor use while alpine road improvements are ongoing.

Current work schedule for a one-way trip across the road:

Day	Time Period	Maximum Delay
Monday – Friday	5 am to 8 am	60 minutes
Monday – Friday	7:30 am to 6 pm	30 minutes
After hours and weekends	6 pm to 5 am	Variable

Weather and road conditions permitting, the 50-mile road remains open for two - way traffic throughout the summer (mid-June to mid-September).

Drainage improvement work gets underway this week at Oberlin Bend, just west of Logan Pass. The Oberlin Bend work will add an additional traffic delay; however, cumulative daytime (7:30 am to 6 pm) delays will not exceed 30 minutes. Early morning (5 am and 8 am), one-hour delays continue, alternating between the work site east of Logan Pass and Oberlin Bend.

Details about the Going-to-the-Sun Road rehabilitation and visitor service improvements are available at: <http://www.nps.gov/glac/sunroad/whatsup.htm> or Glacier National Park Headquarters (1-406-888-7800). Throughout Montana, Dial 511; Select Option '5' for Glacier National Park Tourist Information. Outside of Montana and for other long-distance carriers, dial 1-800-226-7623.

A second crew is expected to be working on the retaining wall to accelerate that wall construction.
